\*Sandals run small — For half sizes, size up to the next whole size.

*Powerstep® offers a wide range of products in the insole, compression and recovery categories for Independent Retailers. Take advantage of the opportunity to consolidate purchases with one vendor to realize savings.*

*Our prefabricated orthotics and insoles are available in a variety of styles. No trimming or modifications required.*

#### PINNACLE MAXX

Maximum cushioning and maximum support. Deeper heel cradle and increased firmness for maximum stability. 2-degree posted heel for improved foot control and positioning.

#### PINNACLE

Built-in, semi-rigid arch support and dual-layer foams make this the perfect blend of cushioning with full support. Ideal for most shoe types.

#### PULSE®

Maximum cushioning and full support specifically designed for use during athletic activity. Provides the perfect blend of stability and cushioning.  
*\*PULSE is exclusive to specialty retailers only.*

#### ORIGINAL

Moderate cushioning and full arch support in a slim, lower-profile design for use in tighter-fitting shoes.

#### SLIMTECH® 3/4

Moderate cushioning and full support in a 3/4 length design. Ideal for use in narrow shoes, dress shoes, boots and cleats.

#### COMFORTLAST®

Maximum cushioning and full support. Shock absorbing gel at heel softens impact of each step. Ideal for all-day comfort or use while walking or jogging.

#### MEMORY

Built-in arch support with maximum cushioning using plush, slow-recovery memory foam that conforms to the shape of the foot for added comfort and pressure relief. Great for sensitive feet.

#### SLENDERFIT®

Ultra-slim, tapered design fits in most women's fashion footwear. Cushioning under ball of foot for increased comfort and protection.
